

## Home Savings Bank AND Trust Company.

EVERYBODY WHO is anybody, or ever expects to be anybody, saves a portion of his salary. The foolish act like the biblical gentleman who hid his piece of silver in the ground; they hide their savings in an old sock or in a bank that pays no interest. That money earns nothing for the owner. Why not make your savings earn something? You can do this by putting them in the

## Home Savings Bank

Why not open an account at once? This Bank was created for the benefit of those "common people" that Abraham Lincoln said "God must have loved because He made so many of them." The laborer with horny hands and clad in jeans, or the honest washerwoman with their mites, are just as welcome here as the millionaire with his bonds. And the mites will draw the same rate of interest.

Money may be sent from a distance for deposit, by check or draft, by registered letter, money order or express, or any other old way. If we have any preference at all as to the manner of getting your money, it is to have you bring it yourselves. We want to meet you. We are desirous of knowing our friends and clients, and shaking them by the hand. When you come to town call in. We may be able to serve you.

## The Home Savings Bank and Trust Company

Is Specially Desirable For MINORS  
and MARRIED WOMEN.

as Section 283 of Arizona Statutes states that "Married women and minors may, in their own right, make and draw deposits, and draw dividends and give valid receipts therefor."

As a TRUST COMPANY we have SPECIAL FACILITIES for serving FOREIGN CORPORATIONS as their representative. The President of the Bank is the Attorney General of the Territory.

Accounts received of Merchants, Firms, Corporations, Banks and Individuals. Correspondence invited.

## Home Savings Bank and Trust Company.

CHAR. F. AINSWORTH, President.  
R. H. GREEN, Vice President.  
R. H. GREEN, Secretary.  
HON. HUGH H. PRICE, Cashier.

Money loaned on real or personal property. General commercial business.

"If you know how to spend it then you got, you have the philosopher's stone."

### TROUBLE IN COTTON TRADE.

English Mills May Be Closed Unless Spinners Agree to Reduction.

London, Mar. 29.—The Speaker today says there are unmistakable signs of more trouble between the masters and the operatives in the cotton trade. A period of trade activity has been followed by a reaction, accelerated by the high prices of raw cotton and other materials, a poor demand from India and an almost complete stoppage of buying from China.

The Lancashire spinners and weavers have held out longer than their rivals in the United States or on the continent, but the rapid closing down of the mills shows their time is coming, and, as the American crop is likely to be insufficient even for the reduced consumption, there is not much prospect of low level quotations for raw cotton to invigorate the demand for yarn or cloth. If some agreement whereby wages may be adjusted according to the state of trade is not soon concluded, declining profits will force the masters to reduce the wages.

Providence, R. I., Mar. 29.—While there is to be no shutdown and no general curtailment by the cotton manufacturers of this vicinity, it is well understood that there is a tacit agreement by the mill men that the present is an opportune time for making repairs, which necessitates the closing of the factories. It is believed that the policy has far better effect on the help, while at the same time it effects a curtailment of production at a time when the demand for goods is bad.

### SCHOOLS AND COLLEGES.

Seventeenth Annual Convention of the North Central Association.

Chicago, March 29.—The seventeenth annual session of the North Central Association of Colleges and Secondary Schools began a two days' session in Chicago this morning. President G. B. Allen of Minnesota presided, with C. A. White of Indiana university acting as secretary. More than one hundred delegates, including many women were present. They represented the leading educational institutions of Colorado, Nebraska, Missouri, Iowa, Minnesota, Wisconsin, Illinois, Indiana, Michigan, Ohio and one or two other states. Many important questions relating to the higher branches of learning will be discussed at the present conference of the association.

### FOUR YEARS AT SING SING.

New York, March 29.—Joseph A. Conlan, a postoffice clerk arrested in San Francisco, recently on a charge of stealing \$2,000 in the registered mail in this city, was today sentenced to four years' imprisonment at Sing Sing.

### MOTHER AND CHILD GONE.

Mrs. Connelly Takes Her Daughter From Home of Foster Parents.

New York, Mar. 29.—Two years ago Mr. and Mrs. Charles Stewart of 3002 East Fourteenth street, adopted Fannie, Mrs. Connelly's 2-year-old daughter, and agreed to employ Mrs. Connelly as a servant. Upon the return of Mr. and Mrs. Stewart from the theater last night Mrs. Connelly and the child had disappeared. A note from Mrs. Connelly recited that the child had been taken away because she was not being properly raised. Mrs. Connelly said she prepared to take the child away and rear her according to her own ideas.

Mr. Stewart has invoked the aid of the police to recover the child.

### THE ACTRESS AND THE TIGER

Miss Katherine Kidder Plays a Losing Game.

Miss Katherine Kidder, who appeared here last season, with Louis James, at the Dorris theater, and who is known to all theater-goers, has been having experiences somewhat out of her line, in the northwest. Indeed the episode, dignified Katherine has been having quite a gay time and the following press dispatch from Helena, Mont., is very surprising to those who know Miss Kidder:

"As a result of an enactment by the recent legislature, the conducting of a gambling house was declared to be a misdemeanor, instead of a felony, and the principal cities of the state now have miniature Monte Carlos with roulette, roulette and poker as the attractions. That the play is not confined to males may be seen by the following special from Anaconda:

"Jimmy Johnson of the Turf Exchange is several hundred dollars richer today by reason of a visit made to his place by Miss Katherine Kidder and six other actresses of her company. The players had a roulette wheel set up for them yesterday afternoon in a private room, and gaily 'bucked the tiger' until 6 p. m. At first they won, the aggregate of their winnings being \$500, but eventually they lost and quit the game \$600 to the bad. The loss fell upon Miss Kidder, who bore it uncomplainingly. At midnight last night, Mrs. Louis James and another party from the company returned to the game and played it until 4 o'clock this morning, quitting about even. It is said the company had a similar experience in Butte."

"A dozen females of the James-Kidder company appeared at one of the largest houses here, determined to recoup the losses incurred at Anaconda, but because of the large crowd engaged around the seductive wheel they were not permitted to enter. They have, however, arranged for a private audience before departing for the east tomorrow, and threaten either to break the bank or 'go broke' in the attempt."

### THE PRICE OF A SEAT.

New York, March 29.—A seat on the New York stock exchange was sold today for \$55,000, which is \$2,500 more than the highest price heretofore paid.

## DRUBBING FOR RUSSIA

Only Remedy For Strained Situation in the East

Japan Thinks It Should Be Administered by the Powers Jointly But if Necessary She Will Undertake It Alone.

Yokohama, Japan, March 13, via San Francisco, March 29.—The feeling that there can be no peace in the orient save by administering a drubbing to Russia is growing stronger. It is the almost unanimous voice of the native press that if the powers do not take measures to curb Russian aggression Japan must undertake the task alone. Coupled with a strong undercurrent of public evidence, there is evidence that the government is preparing for that emergency with the utmost possible diligence.

Unceasing activity at the various naval stations and yards is reported. The nation is evidently gathering its resources and energies for the struggle. From every point of view it is evident that the government and the people think that the encroachments of Russia have become a question of life and death to Japan.

### BACK IN CHICAGO

The Members of the Commercial Club at Home Again.

According to a dispatch from Chicago, the members of the Chicago Commercial club, who were here March 5, reached home Thursday.

"Most certainly our trip has been a success from a business standpoint. When we were in Los Angeles we were said to be worth \$200,000,000. At San Francisco our figure went up to \$1,000,000,000; at Salt Lake it had become \$1,200,000,000; at home, they may say the figure ought to be 30 cents, but what do we care?"

Such was the chorus of the club members on reaching Chicago.

With a swift day's ride through Iowa and Illinois that established a new record for passenger travel from Council Bluffs to Chicago, the club brought its 8,000-mile pleasure journey through the Pacific coast states to a close.

When the special which has held the party for twenty-three days steamed into the Northwestern railway station at 8:30 o'clock, twenty-five members of the club with seven guests got down from the car platforms, hurried after their baggage like college boys back from a vacation, and were whisked away in carriages to their homes, happy in being back in the city, which on Bluffs is described as the "dearest place in the world to us all."

It was a real "Chicago pace" taken by the Northwestern engines and engineers in hauling the special from Council Bluffs to Chicago that gave the returning travelers their first home-like feeling. Ten hours was the time that was taken in hauling six heavy coaches 485 miles. It beat the record for an eastbound passenger train over the line by a full hour, and equaled the best that an engine with a light special with two cars has done.

### CANADIAN ALIEN LABOR LAW.

Manufacturers Seek a Modification of Its Provisions.

Montreal, Que., Mar. 29.—The Canadian Manufacturers' association is taking active steps for the modification of the Canadian alien labor law. Mr. Russell, the commission's secretary, was in Ottawa yesterday, where he interviewed Premier Laurier on the subject, pointing out that the present law was injurious and detrimental to the welfare of Canada, as the policy of excluding skilled labor would place obstacles in the way of establishing new branches of industry. The premier promised to consider the matter.

### AN ART EXHIBIT.

A New Feature of the Corcoran Art Gallery.

Washington, March 29.—The most notable exhibition of painting, drawings and sculpture ever held in the hemicycle room of the Corcoran Art Gallery under the auspices of the Society of Washington Artists. The former exhibits of the society have been limited to the work of local painters and sculptors, but this year's display was thrown open to all American artists.

Besides the large exhibition of canvases, pastels and miniatures, there are many notable pieces of statuary. Several hundred dollars in prizes are to be distributed by the trustees of the Corcoran Art Gallery. The exhibit is to continue until April 13.

### WANTS HIS ROAD BUILT

W. C. Green Chases President Hays Across the Continent.

W. C. Green, president of the Green Consolidated Copper Mining company of La Cananea, Mexico, arrived in the city yesterday morning, on a flying visit to meet President Hays of the Southern Pacific, but reached here one day too late and continued his journey to New York last evening, says the San Francisco Chronicle. The object of his trip was to have President Hays interested in building a line fifteen miles long to reach the mines of the company. Green says that the mines of the

company are being rapidly developed and the Union Iron works has just completed a large plant for the reduction of the ore. The developments so far made have shown that the mines at La Cananea will soon become classed among the largest producers in the world. At present the mines are held back by want of proper transportation facilities, but this is expected to be remedied as soon as a conference can be had with President Hays.

### MISSOURI HUSBAND KILLED.

At Prosperity His Wife Shot Frank Auriegh Four Times.

Webb City, Mo., Mar. 29.—Mrs. Frank Auriegh, wife of a barber of Prosperity, a nearby mining town, killed her husband here shooting him four times. The woman had followed her husband to a saloon and urged him to leave the place with her. She denies that she came to town with the intention of killing Auriegh, and says she only fired when he attempted to shoot her. Michael Patrick, who was with Auriegh at the time of the shooting, is also in custody. Mrs. Auriegh is 30 years old.

### INDICTMENTS RETURNED

The Law Against Murder in Process of Vindication at Yuma.

Yuma, Ariz., March 29.—(Special Correspondence of The Republican.)—Hart, the man who shot Matt DeVane, has been indicted for murder in the first degree, and he has asked for a change of venue. Alexander, the man who shot Mrs. Burns, and Miller and Fane, the men who were with him at the time, have likewise been indicted. There has been considerable sentimental sympathy wasted on the man Alexander, by a certain class of young ladies, one of whom, a school teacher, made the statement that she would give four months of her salary to aid him in getting free, and it must have been a gruesome spectacle to this bevy of young ladies, when today he was marched through the streets shackled to Hart, the Folsom convict and ex-convict murderer of the popular Matt DeVane, on his way from the court house over to the penitentiary.

Happily for Yuma county, and the furtherance of justice everywhere, the administration of the law is not given over to the whimsies. The citizens of Yuma county have been thoroughly aroused by the too frequent crimes of the last few months, and in all cases even justice will be religiously meted out.

### A TEXAS STORM.

Dallas, Texas, March 29.—There was a terrific rain and hail storm over northern Texas this afternoon. The damage to Dallas from water in cellars and stores is estimated at \$100,000.

### OXFORD-CAMBRIDGE

Annual Boat Race Will Take Place on the Thames Today.

London, March 29.—Once again all lovers of aquatic sports throughout the British empire are looking forward in eager anticipation to the Oxford-Cambridge boat race and speculating whether the dark blue or pale blue shall fly to victory. The race takes place on the Thames midway tomorrow. There is as much interest in the event as in any previous year, and the contest between the picked oarsmen of the two universities promises to be witnessed by an immense throng of spectators, although there will be fewer royalties on the banks than in previous years, owing to the court being still in mourning. Both crews took their final practice spin today and many persons lined the river banks to witness their final judgments on the performance of the two crews. Both crews appear to be in unusually good shape and unless an unforeseen accident occurs, the race should be one of the closest in many years.

The course will be the usual one from Putney to Mortlake, a distance of one and one-fourth miles. It will be the fifty-seventh time the famous rivals have fought it out, including the race of 1877, which resulted in a seven-round dead heat. The races date back to 1536, when they were rowed in tubs over the course from Westminster to Putney. Since 1844 the contesting oarsmen have swept the historic path along which the struggle tomorrow will be waged, but in the meantime the racing craft have evolved from crude, unwieldy skiffs into the sleek, powerful, lightning-like skiffs of today.

The two crews of the Oxford-Cambridge race are unique in many respects. In 1849 Oxford won the race on a foul and ten years later received another bloodless victory, the Cambridge boat having sunk. Twenty minutes was beaten for the first time in 1873, when Cambridge won by three lengths in nineteen minutes and thirty-six seconds. This time stood as the best until 1897, when Oxford won by over two lengths in nineteen minutes and twenty-one seconds. Last year the tables were turned by Cambridge, which won easily in the same time that was made by Oxford when it broke all records in 1898. The names and weights of the crews as they will strip for tomorrow's struggle are as follows:

Position.	Oxford.	Pounds.
1.	Bow, G. Christie Miller (Trinity)	170
2.	F. S. Kelly (Balliol)	159
3.	J. Younger (New College)	177
4.	R. C. Seymour (New College)	166
5.	H. J. Hale (Balliol)	175
6.	H. C. Vallon (Brisbane)	172
7.	T. Etherington-Smith (Oriel)	164
8.	S. F. O. Huntley (University)	161
9.	C. W. G. MacLaren (Magdalen)	117
Cambridge.		
1.	Row, R. H. Nelson (Trinity)	154
2.	G. T. Weston (Pembroke)	175
3.	E. F. Duncanson (Emmanuel)	175
4.	C. W. Taylor (Trinity)	179
5.	F. J. Escombe (Trinity Hall)	176
6.	G. Parker (Trinity)	172
7.	B. C. Cox (Trinity Hall)	171
8.	G. M. Maltland (Trinity)	173
9.	Stew. H. Washbrough (Trinity Hall)	112

## ALVORD THE BANDIT

He Was at Douglas Yesterday Morning

Poses Have Been Sent Out From Bisbee and Tombstone—The Train Robber Says He Is Willing to Fight It Out.

Bisbee, Ariz., March 29.—A telephone message received here today from Douglas reports that Burt Alvord, the noted train robber, and two others visited there this morning and visited a number of saloons, and on leaving went toward Silver Creek and the Chiricahua mountains.

A posse of five was sent from here, including three former Rough Riders. Another posse was sent from Tombstone. As the outlaws have only a few hours' start a battle may be looked for. Alvord stated that he was willing to fight it out with any of the officers.

### A FAMILY DISAGREEMENT.

Henderson, Minn., March 29.—Theodore Wallert was hanged today for the murder of his wife and four step-children on August 21 last. The tragedy was the result of a family disagreement.

### TUCSON A TERMINUS

Or Will be if a New Railroad Reaches It.

W. S. Sturgis is in the city from his ranch, having just returned from a trip to the Sierra Pintia mountains in the Altar district of Sonora, where he owns some rich gold claims, says the Tucson Citizen. Mr. Sturgis and Mr. Cervantes sold the great gold mines which have been opened up there by a Philadelphia company, and Mr. Sturgis is interested in the development of the district. A railroad has been completed from the coast north of St. George's bay to the mines of the company, a distance of thirteen miles, and Mr. Sturgis believes that this road will eventually be built to Tucson. The rich mining district which lies upon the proposed route is incentive enough, and when the cattle industry is taken into consideration, the profit to be derived from such a road is very apparent.

"There is no question in my mind," said Mr. Sturgis, "that the road will come to Tucson, and if it does you may look for the greatest boom this country has ever had, for an immense mining and stock country will be brought in touch with this city. The concessions which the Mexican government gave to the company allows them to build on to Quinto Yaa, a point in the direction of Tucson and not far from the border line. The road was built to the coast for the purpose of affording cheap transportation for fuel. The wood in that district was becoming pretty well cut out and coal was necessary. With the road to the coast coal is transported at a minimum expense, and should the road be built on to Tucson, which I am certain it will be, you can readily see what a magnificent prestige this city will have as a commercial center."

"There are twenty stamps in use at the mine of the company in the Sierra Pintia mountains and twenty more will be placed in the property. The company outfit, which is operating at Plomo, thirty miles from the line, want the road built to its camp, and there are hundreds of mines which may be worked with profit between Plomo and Tucson with the means of cheap transportation."

"This news is of great importance, and since the road is completed a distance of thirteen miles, no one can doubt but that the promoters mean to continue it further and bring it eventually to Tucson, which is now the supply point a five Altar district."

### ILLINOIS TEACHERS.

A Thousand of Them in Annual Meeting at Decatur.

Decatur, Ill., March 29.—More than a thousand teachers are here attending the seventeenth annual session of the Central Illinois Teachers' association. Every village and town in central Illinois is represented, and it is said to be the largest meeting in the history of the association. The convention was opened this morning with prayer and after the usual addresses of welcome had been delivered and responded to the convention took up the discussion of educational topics. One of the features of the forenoon session was an address on "Centralization of Schools," delivered by Alfred E. Lyles, state superintendent of public instruction. The programme covers two days, with three sessions daily, during which time papers will be presented and addresses delivered by prominent educators from the University of Chicago, the University of Illinois and other leading institutions of the state.

### THE CITY COUNCIL

Entertains a Donation Party and Hopes to Break a Contract.

Phoenix is getting to be a town of so much importance that every meeting of the city council is an important meeting. A special meeting was held last night, principally to consider the matter of acquiring, by donation, the property of the Phoenix Library association, but before that question had time to get before the council another one, over which the mayor and other members of the council have already passed many sleepless nights, was thrust upon them. That question, as

might be imagined, is the contract between the corporation and the city water works.

Mr. Sanders brought up the subject by reference to the recent destruction by fire of the residence of C. M. Frazier in the Simms addition. Mr. Sanders said that now that the additions were in, it was no more than right that some steps should be taken to provide adequate fire protection for suburban property. He said that if the city were to put in enough new hydrants to afford an adequate water supply at the present contract rates the city would be bankrupt in no time. He therefore moved that the city attorney be instructed to study the contract like a Philadelphia lawyer, and suggested that it be repealed and well directed blows, a report of progress to be made at the next meeting.

Mr. Dyer favored the move in a general way, but thought a few plugs should be put in for partial protection at once. Mr. McNeil seconded Mr. Sanders' motion and explained to Mr. Dyer that every hydrant put in called for a twenty-five-year contract at the present high prices, and suggested that if the city could break the contract, it ought to do so before getting in any deeper, and in the meantime protect the additions with auxiliary chemical apparatus, if necessary. After some further discussion the motion was put and carried, there being no dissenting vote, though whether all voted in the affirmative or not could not be told as there was no roll call.

Councilman McNeil was authorized to erect stand-pipes for the use of sprinkling carts at Sixth and Van Buren streets and at the water works. The city attorney was instructed to prepare an ordinance prohibiting the hitching of horses to electric and awning poles and other similar structures, and more rigidly enforcing the use of hitching weights.

By this time Messrs. J. L. B. Alexander, W. C. Foster and Vernon Clark, directors, and President B. Hyman, of the Phoenix Library association, had arrived and announced to the council their desire to donate to the city the property of that organization on condition that the city would care for it in accordance with their ability to do so, as set forth in the territorial statutes.

Some question was raised as to the authority of the city to accept the donation, and the city attorney read the legislative act of two years ago and the recent law amending it, which provides for the acquiring of a library and its control by a board of five trustees, to be selected by the council, and who shall have charge of the library; also the maintenance of the library by a tax levy of not to exceed one-half of a mill.

A resolution was then drawn up legally accepting the gift and signed by Councilman McNeil, after which it was unanimously passed by the council. It was explained by the library directors that their librarian had consented to remain in charge of the library till Monday evening, whereupon a motion to postpone the selection of a board of library trustees to Monday night was carried. It was also suggested that at the same time the name be changed to Phoenix Public library.

Mention was made by one of the councilmen that as the various canal companies on the north side were declaring dividends, it would be the part of wisdom for someone to look over the city's papers and ascertain how many shares of stock the city held in these canals and make application to the companies for their portion of the profits. It would be a rather unique and pleasing sensation for the city to draw down a dividend from something for once in its life. The matter was referred to the finance committee.

### A MURDEROUS HUSBAND

Kills His Wife and Mortally Wounds Her Companion.

Sacramento, March 29.—A special to the Record-Union from Danville, Yolo county, states that J. A. Woodman shot and killed his wife this evening and also shot Ira Jones, who will die.

Jones was out walking with Woodman's wife and had been making frequent visits to see her. Woodman had threatened to shoot Jones some two or three weeks ago. Woodman says he did not intend to kill his wife.

### TRAITORS IN BRAZIL'S NAVY.

An Admiral Arrested on Account of Exposing Monarchist Plot.

Rio Janeiro, Mar. 29.—Great excitement prevails here over the arrest of Admiral Custodio Jose Mello and others on account of the revelations of an anarchist plot through the suicide of Baron de Bural.

Extraordinary precautions are being taken by the government to prevent any outbreak. The war vessels are closely guarded and it is believed that the officers are not trustworthy.

Details of the plot which Baron de Bural revealed to the authorities have been revealed. It was the purpose of those concerned, it is declared, to give the signal for the outbreak by the assassination of President Campos Sales. During the excitement that followed the monarchist adherents in the army and navy were to take possession of the city and hold the government offices. The affairs of state were to be entrusted to a triumvirate composed of Admiral Mello, Marshal Canturia and Counselor Lafayette Pereira.

Admiral Mello was quietly removed from this city as it was feared that his presence would cause disturbances. He was conveyed to Cobias island, where he is held in the custody of Admiral Proença.

## THE WAR MAKERS

Filipinos Making Haste Into the Fold

TRIAS TO THE CAPTIVE

A Further Holding Out Against the United States He Thought Would be a Foolish Crime—The Capture of Aguinaldo Created No Great Stir in Manila—Rewards For Those Who Took Part in It.

Manila, March 29.—Some hours elapsed before the news of Aguinaldo's capture was generally known. The fact that he was a prisoner caused joy and congratulations among the Americans. The native population was apathetic. There was no particular excitement anywhere. After being convinced of Aguinaldo's capture, General Geronimo, the insurgent leader in the province of Morong, Luzon, surrendered with six officers, forty-six men and sixty rifles to Col. J. M. Thompson of the Forty-second regiment at San Mateo.

As the news of Aguinaldo's capture spreads through the archipelago the insurgents are becoming disheartened and there is a marked increase in the number of individual surrenders. General Calles, who is particularly outlawed on account of his atrocious crimes, sent an emissary to General Bates, who answered that he must surrender unconditionally and stand trial. The former insurgent officers and the Macabebe scouts who took part in the capture of Aguinaldo will probably receive a monetary reward. The amount has not been specified. It has also been recommended that every man participating in the capture of Aguinaldo receive a special medal.

Since Aguinaldo has been domiciled at Calacanan palace persons not provided with special permits have been denied admission to the grounds. General Trias, commander of the insurgent forces in southern Luzon, who recently surrendered to the American authorities, visited Aguinaldo and told the latter why he surrendered. Trias said that a continuance of armed opposition to the United States was unjustifiable and ruinous; that the independence of the Philippines was impossible, and that the Philippines would better accept liberty, prosperity and progress under American rule.

The capture of Aguinaldo, following the surrender of Trias, will probably occasion the surrender of the insurgent leader Malvar, in Batangas province, Luzon; Bellarmino, in Albay province, Luzon, and Lucban, in the island of Samar, within a month.

PRAISE OF FUNSTON.  
Only Disappointed Officers Will Be Jealous of Him.

San Francisco, March 29.—Major General S. B. M. Young, who arrived from Manila today on the transport Logan, said: "General Funston's exploit was one of remarkable bravery, and he is deserving of the highest recognition at the hands of our government. This talk about 'West Point influence' is all bosh. If any such statements have been made that graduates of West Point or men who have risen from the ranks will oppose Funston's advancement, it has come from the lips of disappointed officers. No good officer or gentleman would belittle such a brave achievement."

General Young, in speaking of the effect of the capture of Aguinaldo on the situation in the islands, said he believed the troops would have to be kept there but six months longer. He did not think it would be wise to bring them all away, however, for there were a large number of marauding bands throughout the islands who would have to be kept under subjection.

"It will take at least two generations," said the general, "to get the Filipinos to understand the meaning of self-government as we understand it."

### A STRIKE AVERTED

Great Rejoicing in Consequence in the Anthracite Region.

Wilkesbarre, Pa., March 29.—It was nearly noon today before the executive board of the three anthracite districts and President Mitchell of the United Mine Workers went into executive session. The proceedings were secret. The miners' convention decided tonight not to call a strike on April 1. The news was received with much rejoicing by all classes.

### A SCALE AGREED UPON.

Pittsburg, Pa., March 29.—The coal miners of the Pittsburgh district in conference today ratified the wage scale signed last week by the wage committee. This action insures steady employment for more than 20,000 men in this district for the coming year.

## THE PHOENIX NATIONAL BANK

PHOENIX, ARIZONA  
Paid-Up Capital, \$100,000 Surplus and Undivided Profits, \$50,000  
E. B. Gage, Pres. T. W. Pemberton, Vice Pres. C. J. Hall, Cashier. L. B. Larimer, Asst. Cashier  
Steel-lined Vaults and Steel Safety Deposit Boxes. General Banking Business. Drafts issued on all principal cities of the world. Directors—Jas. A. Fleming, C. J. Hall, G. B. Richmond, A. S. Gage, R. Heyman, F. M. Murphy, D. M. Ferry, E. B. Gage, T. W. Pemberton.
